

Continuing with their spirit of charity, Troop 6671 visited downtown fire station #3 to thank the firefighters for their bravery and to donate toys to the Spark of Love Toy Drive. Captain Robby welcomed the girls with open arms and promised a fun-filled educational day. After treating the fire fighters to a hearty meal, the girls were given a tour of the fire station. They met Java (the fire dog), had an opportunity to hold a fire hose and were given permission to climb up the long fire truck!

When it came time to say good-bye, the girls couldn't help but ask: "When can we come back?" Needless to say, visiting downtown fire station #3 will be Troop 6671's new annual tradition!

## Girl Scout TROOP 6671

**For all the hard work the troop has done since its inception, it was only fair to reward the Daisies. They were given a chance to witness Disney on Ice: Dare to Dream at the Staples Center. The girls let it all go with Anna and Elsa. They were entranced by the calling sea, not unlike Moana. And they were awed by fearless princesses - Belle, Rapunzel and Cinderella. They sang, danced and cheered their hearts out when the drums rolled to the beat and tempo of the songs. Never had any of the girl seen costumes so magnificent it made them feel like they belonged in another realm!**
