**Note: Balance is due on or before 1st day of school.**  
**Please fill out a separate Registration form and forward to the office.**

# Curriculum and Course Description

## TK, Transitional Kindergarten

In TK, HFGS Summer School faculty will build upon foundational skills such as phonological awareness for ELA, number sense for math, and fine motor skills. In preparation for kindergarten, students will work towards mastery of their letter sounds and blending of CVC words. Incoming TK students will be given the opportunity to socialize with future classmates and familiarize themselves with their teacher through Zoom and during in-person instruction. Lessons for each student will be based on ability and skills.

## Kindergarten

Kindergarten students will be strengthening their reading and comprehension skills along with first grade concepts for advanced students. Students will receive additional phonics instruction in order to build blending and decoding skills needed to be successful in the next grade level. Math instruction will consist of number sense, addition and subtraction families, base ten, and other assessed skills for each student.

## 1st Grade

1st grade class will focus on strengthening the skills such as phonics, reading skills, and math facts. In addition, some important skills introduced in 2nd grade such as advanced reading comprehension, writing paragraphs, and 2 digit addition and subtraction will be provided. This is a great opportunity for students as all lessons will be based on the needs and interests of each learner.

## 2nd and 3rd Grade

This study class will focus on strengthening the skills learned in 2nd and 3rd grade such as 3-digit addition and subtraction with and without regrouping, time, money, multiplication and division. In preparation for the next school year, the students will continue to practice advanced and supporting reading fluency, reading comprehension skills, and writing composition. Students will also have the opportunity to integrate art and STEM skills into their learning.

## 4th and 5th Grade

### Language Arts

Students will be focusing on a novel for the summer. Students will be strengthening vocabulary terms, analysis of text, and reflection of self. Students will be challenged to create art pieces reflecting a novel, and STEM projects such as solar ovens.

Students will focus on strengthening concepts learned in 4th/5th grade, such as Number Operations, Fraction Operations, Decimal Operations, and Geometry. Instructional time will focus on reinforcing on these three critical areas: Developing an understanding and fluency with multi-digit multiplication and division; Developing an understanding of fraction equivalence in addition, subtraction, and multiplication; and, Understanding that geometric figures can be analyzed and classified based on their properties.

## 6th / 7th / 8th Grade

### Language Arts

Students will be focusing on a novel for the summer. Students will be strengthening vocabulary terms, analysis of text, and reflection of self. Students will be challenged to create art pieces reflecting the novel, as well as learning and creating STEM projects.

### Math

Students will focus on strengthening concepts learned in 6th/7th grade, such as Ratios and Rational Numbers, Expressions and Equations, and Geometry. Instructional time will focus on reinforcing on these three critical areas: Connecting ratios and rate to whole number operations; Completing all fraction operations and expanding the notion to rational numbers; writing, interpreting, and using expressions and equations.

### Physical Education

Students will demonstrate motor skills needed to perform physical activity. We will be performing our outdoor activities that will enhance their hand-eye coordination, fitness/cardiovascular, and exercise performances.

To be learned are the proper techniques of exercises and the importance of stretching and nutrition. The BOKS Program, which is sponsored by Reebok, will be used. It is an additional program used to make physical activity a lifelong commitment to health and fitness. It envisions a healthier, happier active kid.

All COVID-19 safety protocols of hand washing, social distancing, and wearing of face masks and special awareness are to be regularly followed.

### **TK – 2nd Grade**

Balloon toss, Ball toss, Waddle relay, Sit-up challenge, and more...

### **3rd – 5th Grade**

Waddle relay, Sit-up and Push-up Challenge, Sneaker Challenge and more...

### **6th – 8th Grade**

Soccer relay, Basketball relay, Sit-up and Push-up Challenge, Sneaker Challenge, Stack & Jack game, and more...

### **Spanish**

#### **TK - 2nd Grade**

Students will be reintroduced to the basics of reading, writing, and speaking Spanish. The focus will be on the basics of a new language such as the alphabet, counting and identifying numbers, shapes, colors, days of the week, months of the year, etc. Students will have the opportunity to show their individual mastery of the topics through online assignments that will be uploaded on Seesaw. Students will also be exposed to spoken Spanish through videos and voice recordings. Towards the end of the class, students will begin to read Spanish and write phrases confidently and with fluency.

#### **3rd – 5th Grade**

Students will focus on reading, writing, and learning new vocabulary in the summer. Students will be exposed to a variety of new vocabulary and will learn how to describe the world around them in Spanish. Students will learn the basics of sentence structure which will then be used as a foundation to help them read and write in Spanish. The class will be reading short passages and be exposed to spoken Spanish through videos and voice recordings along the way as well.

#### **6th – 8th Grade**

Students will be reintroduced to the basics of reading and writing and speaking Spanish. Once students have reviewed the basics, the focus will be on improving writing, reading, and learning new vocabulary. Students will also get the opportunity to learn about the history and cultures of other multiple Spanish - speaking countries. These young learners will be exposed to topics using a variety of assessments such as videos and worksheets. Mastery of skills will be assessed through online assignments.
